The Thorne Advantage

FDA current Good Manufacturing Practices (cGMPs)

- | **The FDA** sets standards and inspects facilities for conditions or practices that would indicate product is being prepared, packed, or held under conditions that would:
 - | Cause adulteration
 - | Make the product injurious to health
- | **The manufacturer** must establish product specifications for the **identity**, **purity**, **strength**, and **composition** of the finished product
 - | Master Manufacturing Records (MMR's)
 - | Specifications for ingredients, components, labels, and finished products
 - | Standard Operating Procedures (SOP's)
 - | Ingredient and product testing
 - | Qualified and trained personnel
 - | Product complaint investigation and follow-up

NSF International Certification

- | Independent, third-party certification
- | Inspects and audits facility for GMP standards
- | Comprehensive product testing to ensure products meet specifications for identity, purity, strength, and composition
- | Ensures a safer product reaches consumers

In Thorne's 275k Summerville, SC facility, we control everything from Manufacturing to product testing and R&D.

Our facility has been assessed by NSF International and has earned the highest rating.

Thorne has an exemplary compliance record with the Current Good Manufacturing Practices (cGMP), set by the U.S. Food and Drug Administration. Our manufacturing facility, warehouses, and shipping centers are inspected and have passed every review without issuance of an FDA Form 483.

Australian Government
Department of Health
Therapeutic Goods Administration

Thorne is the first company to earn an A1 rating from TGA, recognized as the toughest regulatory agency in the world.

Supplement Seals Comparison

ConsumerLab.com

NSF International

U.S. Pharmacopeia (USP)

UL

Does it buy initial test samples in stores or are they provided by the manufacturer?

Purchased in stores

Provided by the manufacturer

Provided by the manufacturer

Provided by the manufacturer

How often does it retest or spot-check?

Once per year using samples purchased in stores

Once per year using samples provided by manufacturer and occasionally purchased in stores

One to six times per year using samples purchased in stores

Twice per year using samples purchased in stores

How much do manufacturers pay to have each product certified?

\$3,000 to \$5,000 per product

\$3,000 to \$5,000 per product plus an audit fee of about \$13,000

\$3,000 to \$15,000 per product plus an initial audit fee of \$15,000 and a label fee of 1 cent per bottle

\$2,000 to \$8,000 per product plus an audit fee of \$4,000 to \$7,000

Are there products it won't test?

Products containing ingredients known to be unsafe

Products marketed for weight loss or sexual enhancement

Products known to contain unsafe ingredients and those marketed for erectile dysfunction, weight loss, or sports

Products containing ingredients known to be unsafe or those not recognized as dietary ingredients by the FDA

Certification: cGMP and NSF

The FDA's **cGMP** and DSHEA act set standards for manufacturing and product safety.

NSF is the one of the most internationally respected independent certification organizations.

NSF Certified for Sport® helps athletes make safer decisions in supplements. The exclusive permitted seal for MLB, NHL and CFL and the recommended option of many others.

Thorne's facility, policies, and procedures are regularly audited by the FDA and have an exemplary compliance record.

Thorne Research is certified by NSF International for our good manufacturing practices, which includes quarterly inspections of the manufacturing facility and warehouse.

Each batch of a product that Thorne offers to elite athletes is tested by NSF for identity, purity, quality, and for the absence of more than 200 substances banned by international sporting federations.

SUPPLEMENT FACTS		
Serving Size: Two Capsules		
Servings Per Container: 30		
Two Capsules Contain:		%DV
Vitamin A (450 mcg from Beta Carotene and 600 mcg as Palmitate)	1.05 mg	117%
Vitamin C (as Ascorbic Acid)	250 mg	278%
Vitamin D (as Vitamin D3) (2,000 IU)	50 mcg	250%
Vitamin E (as d-Alpha Tocopheryl Acid Succinate)	16.5 mg	110%
Vitamin K (200 mcg as Vitamin K1 and 200 mcg as Vitamin K2 as MK-4)	400 mcg	333%
Thiamin (as Thiamin HCl)	50 mg	4,167%
Riboflavin (as Riboflavin 5'-Phosphate Sodium)	12 mg	923%
Niacin (as Niacinamide)	80 mg	500%
Vitamin B6 (as Pyridoxal 5'-Phosphate)	20 mg	1,176%
Folate (400 mcg as L-5-Methyltetrahydrofolate† from L-5-Methyltetrahydrofolic Acid, Glucosamine Salt)	667 mcg DFE	167%
Vitamin B12 (as Methylcobalamin)	600 mcg	25,000%
Biotin	500 mcg	1,667%
Pantothenic Acid (as Calcium Pantothenate)	45 mg	900%
Calcium (as TRAACS® Calcium Bisglycinate Chelate††, Dicalcium Phosphate, Calcium Laurate, Calcium Pantothenate)	52 mg	4%
Iodine (as Potassium Iodide)	75 mcg	50%
Magnesium (as TRAACS® Magnesium Bisglycinate Chelate)††	20 mg	5%
Zinc (as TRAACS® Zinc Bisglycinate Chelate)††	15 mg	136%
Selenium (as L-Selenomethionine)	200 mcg	364%
Copper (as TRAACS® Copper Bisglycinate Chelate)††	750 mcg	83%
Manganese (as TRAACS® Manganese Bisglycinate Chelate)††	3 mg	130%
Chromium (as TRAACS® Chromium Nicotinate Glycinate Chelate)††	400 mcg	1,143%
d-Gamma Tocopherol (from Mixed Tocopherols)	24 mg	*
Boron (as Bororganic™ Boron Glycinate Complex)†††	2 mg	*
Lutein (from Aztec Marigold extract (flower) (<i>Tagetes erecta</i>))	140 mcg	*

*Daily Value (DV) not established.

Other Ingredients: Hypromellose (derived from cellulose) capsule, Dicalcium Phosphate, Calcium Laurate.

Gamma tocopherol does not have a recognized IU equivalent.

Suggested Use: Take 2 capsules daily or as recommended by your health professional.

Multi-Vitamin Elite

Two multi-vitamin / mineral formulas – for A.M. and P.M. – that support high-performance nutrition*

- | Benefits athletes or anyone looking for a complete multi with additional performance support*
- | In addition to basic foundational support, the AM formula provides metabolic and musculoskeletal support, while the PM formula provides additional support for rest and recovery*
- | NSF Certified for Sport®
- | Key ingredients besides a multi: Meriva®, green tea phytosome, Relora®
